SECTION 1. IDENTIFICATION

Product name : DOW CORNING(R) 1200 OS PRIMER CLEAR

Product code : 00000000002736276

Manufacturer or supplier’s details

Company name of supplier : Dow Corning Corporation

Address : South Saginaw Road
           Midland Michigan 48686

Telephone : (989) 496-6000

Emergency telephone : 24 Hour Emergency Telephone : (989) 496-5900
                    CHEMTREC : (800) 424-9300

Recommended use of the chemical and restrictions on use

Recommended use : Adhesive, binding agents

SECTION 2. HAZARDS IDENTIFICATION

GHS Classification

Flammable liquids : Category 3

Serious eye damage : Category 1

GHS label elements

Hazard pictograms : [Diagram of pictograms]

Signal Word : Danger

Hazard Statements : H226 Flammable liquid and vapor.
                   H318 Causes serious eye damage.

Precautionary Statements : Prevention:
                          P210 Keep away from heat/sparks/open flames/hot surfaces.
                          No smoking.
                          P233 Keep container tightly closed.
                          P240 Ground/bond container and receiving equipment.
                          P241 Use explosion-proof electrical/ ventilating/ lighting/ equipment.
                          P242 Use only non-sparking tools.
                          P243 Take precautionary measures against static discharge.
                          P280 Wear protective gloves/ eye protection/ face protection.

Response:
P303 + P361 + P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P305 + P351 + P338 + P310 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor.

Storage:
P403 + P235 Store in a well-ventilated place. Keep cool.

Disposal:
P501 Dispose of contents/ container to an approved waste disposal plant.

Other hazards
Static-accumulating flammable liquid.
Vapors may form explosive mixture with air.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Mixture
Chemical nature : Inorganic and organic compounds

Hazardous ingredients

<table>
<thead>
<tr>

SECTION 4. FIRST AID MEASURES

General advice : In the case of accident or if you feel unwell, seek medical advice immediately. When symptoms persist or in all cases of doubt seek medical advice.

If inhaled : If inhaled, remove to fresh air.
Get medical attention if symptoms occur.

In case of skin contact : In case of contact, immediately flush skin with plenty of water. Remove contaminated clothing and shoes.
Get medical attention.
Wash clothing before reuse.
Thoroughly clean shoes before reuse.

In case of eye contact : In case of contact, immediately flush eyes with plenty of water for at least 15 minutes.
If easy to do, remove contact lens, if worn.
Get medical attention immediately.

If swallowed : If swallowed, DO NOT induce vomiting.
SAFETY DATA SHEET

DOW CORNING(R) 1200 OS PRIMER CLEAR

Get medical attention if symptoms occur. Rinse mouth thoroughly with water.

Most important symptoms and effects, both acute and delayed

Protection of first-aiders

Notes to physician

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media

Unsuitable extinguishing media

Specific hazards during fire fighting

Hazardous combustion products

Specific extinguishing methods

Special protective equipment for fire-fighters

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Environmental precautions

Discharge into the environment must be avoided.
Methods and materials for containment and cleaning up:
Non-sparking tools should be used.
Soak up with inert absorbent material.
Suppress (knock down) gases/vapors/mists with a water spray jet.
For large spills, provide diking or other appropriate containment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container.
Clean up remaining materials from spill with suitable absorbent.
Dispose of saturated absorbent or cleaning materials appropriately, since spontaneous heating may occur.
Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable.
Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

SECTION 7. HANDLING AND STORAGE

Technical measures:
Ensure all equipment is electrically grounded before beginning transfer operations.
This material can accumulate static charge due to its inherent physical properties and can therefore cause an electrical ignition source to vapors. In order to prevent a fire hazard, as bonding and grounding may be insufficient to remove static electricity, it is necessary to provide an inert gas purge before beginning transfer operations.
Restrict flow velocity in order to reduce the accumulation of static electricity.

Local/Total ventilation:
Use with local exhaust ventilation.
Use only in an area equipped with explosion proof exhaust ventilation.

Advice on safe handling:
Do not get on skin or clothing.
Do not breathe vapors or spray mist.
Do not swallow.
Do not get in eyes.
Handle in accordance with good industrial hygiene and safety practice.
Non-sparking tools should be used.
Keep container tightly closed.
Keep away from water.
Protect from moisture.
Keep away from heat and sources of ignition.
Take precautionary measures against static discharges. Take care to prevent spills, waste and minimize release to the environment.

Conditions for safe storage: Keep in properly labeled containers. Keep tightly closed. Keep in a cool, well-ventilated place. Store in accordance with the particular national regulations. Keep away from heat and sources of ignition.

Materials to avoid: Do not store with the following product types: Strong oxidizing agents Organic peroxides Flammable solids Pyrophoric liquids Pyrophoric solids Self-heating substances and mixtures Substances and mixtures which in contact with water emit flammable gases Explosives Gases

</table>

Engineering measures:
- Processing may form hazardous compounds (see section 10).
- Minimize workplace exposure concentrations.
- Use only in an area equipped with explosion proof exhaust ventilation.
- Use with local exhaust ventilation.

Personal protective equipment

Respiratory protection:
- General and local exhaust ventilation is recommended to maintain vapor exposures below recommended limits. Where concentrations are above recommended limits or are unknown, appropriate respiratory protection should be worn. Follow OSHA respirator regulations (29 CFR 1910.134) and use NIOSH/MSHA approved respirators. Protection provided by air purifying respirators against exposure to any hazardous chemical is limited. Use a positive pressure air supplied respirator if there is any potential for uncontrolled release, exposure levels are unknown, or any other circumstance where air purifying respirators may not provide adequate protection.

Hand protection
- Material: Chemical-resistant gloves

Remarks:
- Choose gloves to protect hands against chemicals depending on the concentration specific to place of work. Breakthrough time is not determined for the product. Change gloves often!
- For special applications, we recommend clarifying the resistance to chemicals of the aforementioned protective gloves with the glove manufacturer. Take note that the product is flammable, which may impact the selection of hand protection. Wash hands before breaks and at the end of workday.

Eye protection:
- Wear the following personal protective equipment:
  - Chemical resistant goggles must be worn.
  - If splashes are likely to occur, wear:
    - Face-shield

Skin and body protection:
- Select appropriate protective clothing based on chemical resistance data and an assessment of the local exposure potential.
- Wear the following personal protective equipment:
  - Flame retardant antistatic protective clothing.
  - Skin contact must be avoided by using impervious protective clothing (gloves, aprons, boots, etc).

Hygiene measures:
- Ensure that eye flushing systems and safety showers are located close to the working place.
When using do not eat, drink or smoke. Wash contaminated clothing before re-use. These precautions are for room temperature handling. Use at elevated temperature or aerosol/spray applications may require added precautions. For further information regarding the use of silicones / organic oils in consumer aerosol applications, please refer to the guidance document regarding the use of these type of materials in consumer aerosol applications that has been developed by the silicone industry (www.SEHSC.com) or contact the Dow Corning customer service group.

SECTION 10. STABILITY AND REACTIVITY

Reactivity : Not classified as a reactivity hazard.

Chemical stability : Stable under normal conditions.

Possibility of hazardous reactions : Flammable liquid and vapor.
Vapors may form explosive mixture with air.
Use at elevated temperatures may form highly hazardous compounds.
Can react with strong oxidizing agents.
Hazardous decomposition products will be formed upon contact with water or humid air.
Hazardous decomposition products will be formed at elevated temperatures.

Conditions to avoid : Exposure to moisture.
Handling operations that can promote accumulation of static charges.
Heat, flames and sparks.

Incompatible materials : Oxidizing agents
Water

Hazardous decomposition products
Contact with water or humid air : Propan-1-ol
2-Butoxyethanol
Butan-1-ol

Thermal decomposition : Formaldehyde

SECTION 11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure
Inhalation
Skin contact
Ingestion
Eye contact
Acute toxicity
Not classified based on available information.

**Product:**
Acute oral toxicity: Acute toxicity estimate: > 5,000 mg/kg
Method: Calculation method

**Ingredients:**

**Octamethyltrisiloxane:**
Acute oral toxicity: LD50 (Rat): > 2,000 mg/kg
Assessment: The substance or mixture has no acute oral toxicity
Remarks: Based on test data

Acute inhalation toxicity: LC50 (Rat): > 2350 ppm
Exposure time: 4 h
Test atmosphere: vapor
Assessment: The substance or mixture has no acute inhalation toxicity
Remarks: Based on test data

Acute dermal toxicity: LD50 (Rat): > 2,000 mg/kg
Assessment: The substance or mixture has no acute dermal toxicity
Remarks: Based on test data

**Tetrakis(2-butoxyethyl) orthosilicate:**
Acute oral toxicity: LD50 (Rat): > 2,000 mg/kg
Assessment: The substance or mixture has no acute oral toxicity
Remarks: Information taken from reference works and the literature.

Acute dermal toxicity: LD50 (Rat): > 2,000 mg/kg
Assessment: The substance or mixture has no acute dermal toxicity
Remarks: Information taken from reference works and the literature.

**Titanium tetrabutanolate:**
Acute oral toxicity: LD50 (Rat): > 2,000 mg/kg

Acute inhalation toxicity: LC50 (Rat): 11 mg/l
Exposure time: 4 h
Test atmosphere: dust/mist

**Skin corrosion/irritation**
Not classified based on available information.

**Ingredients:**

**Octamethyltrisiloxane:**
Species: Rabbit
Result: No skin irritation
Remarks: Based on test data

**Tetrakis(2-butoxyethyl) orthosilicate:**
Species: Rabbit
Result: Skin irritation
Remarks: Based on test data

**Titanium tetrabutanolate:**
Result: Skin irritation

**Serious eye damage/eye irritation**
Causes serious eye damage.

**Ingredients:**

**Octamethyltrisiloxane:**
Result: No eye irritation
Remarks: Based on data from similar materials

**Tetrakis(2-butoxyethyl) orthosilicate:**
Species: Rabbit
Result: No eye irritation
Remarks: Information taken from reference works and the literature.

**Titanium tetrabutanolate:**
Species: Rabbit
Result: Irreversible effects on the eye

**Respiratory or skin sensitization**

**Skin sensitization**
Not classified based on available information.

**Respiratory sensitization**
Not classified based on available information.

**Ingredients:**

**Octamethyltrisiloxane:**
Assessment: Does not cause skin sensitization.

Test Type: Human repeat insult patch test (HRIPT)
Species: Humans
Remarks: Based on test data

**Tetrakis(2-butoxyethyl) orthosilicate:**
Assessment: Does not cause skin sensitization.

Test Type: Buehler Test
Remarks: No known sensitising effect.
Information taken from reference works and the literature.

Titanium tetrabutanolate:
Test Type: Local lymph node assay (LLNA)
Routes of exposure: Skin contact
Species: Mouse
Result: negative

Germ cell mutagenicity
Not classified based on available information.

Ingredients:
Octamethyltrisiloxane:
Genotoxicity in vitro
: Test Type: Chromosome aberration test in vitro
  Result: negative
  Remarks: Based on test data
  : Test Type: Bacterial reverse mutation assay (AMES)
    Result: negative
    Remarks: Based on test data

Titanium tetrabutanolate:
Genotoxicity in vitro
: Test Type: Bacterial reverse mutation assay (AMES)
  Method: OECD Test Guideline 471
  Result: negative

Carcinogenicity
Not classified based on available information.
IARC
No ingredient of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

OSHA
No ingredient of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

NTP
No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

Reproductive toxicity
Not classified based on available information.

Ingredients:
Octamethyltrisiloxane:
Effects on fertility
: Test Type: Combined repeated dose toxicity study with the reproduction/developmental toxicity screening test
  Species: Rat, male and female
  Application Route: inhalation (vapor)
Symptoms: No effects on fertility.
Remarks: Based on test data

Test Type: Uterotrophic assay
Species: Rat, female
Application Route: inhalation (vapor)
Result: negative
Remarks: Based on test data

Effects on fetal development:
Test Type: Combined repeated dose toxicity study with the reproduction/developmental toxicity screening test
Species: Rat, male and female
Application Route: inhalation (vapor)
Symptoms: No effects on fetal development.
Remarks: Based on test data

Reproductive toxicity - Assessment:
No evidence of adverse effects on sexual function and fertility, or on development, based on animal experiments.

STOT-single exposure
Not classified based on available information.

Ingredients:
Titanium tetrabutanolate:
Assessment: May cause respiratory irritation.
Assessment: May cause drowsiness or dizziness.

STOT-repeated exposure
Not classified based on available information.

Ingredients:
Octamethyltrisiloxane:
Routes of exposure: Ingestion
Assessment: No significant health effects observed in animals at concentrations of 100 mg/kg bw or less.
Routes of exposure: inhalation (vapor)
Assessment: No significant health effects observed in animals at concentrations of 1 mg/l/6h/d or less.

Repeated dose toxicity

Ingredients:
Octamethyltrisiloxane:
Species: Rat
Application Route: Ingestion
Remarks: Based on test data
Species: Rat
Application Route: inhalation (vapor)
Remarks: Based on test data

**Aspiration toxicity**
Not classified based on available information.

**Further information**

**Ingredients:**

**Octamethyltrisiloxane:**
Remarks: This material contains octamethyltrisiloxane (L3). Repeated inhalation exposure in rats to L3 resulted in protoporphyrin accumulation in the liver. Without knowledge of the specific mechanism leading to the protoporphyrin accumulation the relevance of this finding to humans is unknown.

### SECTION 12. ECOLOGICAL INFORMATION

**Ecotoxicity**

**Ingredients:**

**Octamethyltrisiloxane:**

Toxicity to fish:
- LC50 (Oncorhynchus mykiss (rainbow trout)): > 0.019 mg/l
- Exposure time: 96 h
- Method: OECD Test Guideline 203
- Remarks: Based on test data
  No toxicity at the limit of solubility.

Toxicity to daphnia and other aquatic invertebrates:
- EC50 (Daphnia magna (Water flea)): > 0.020 mg/l
- Exposure time: 48 h
- Method: OECD Test Guideline 202
- Remarks: No toxicity at the limit of solubility.

Toxicity to algae:
- EC50 (Pseudokirchneriella subcapitata (green algae)): > 0.0094 mg/l
- Exposure time: 72 h
- Method: OECD Test Guideline 201
- Remarks: No toxicity at the limit of solubility.

Toxicity to fish (Chronic toxicity):
- NOEC (Oncorhynchus mykiss (rainbow trout)): > 0.027 mg/l
- Method: OECD Test Guideline 210
- Remarks: Based on test data
  No toxicity at the limit of solubility.

Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity):
- NOEC (Daphnia sp.): > 0.15 mg/l
- Exposure time: 21 d
- Method: OECD Test Guideline 211
- Remarks: No toxicity at the limit of solubility.

**Ecotoxicology Assessment**

Acute aquatic toxicity: This product has no known ecotoxicological effects.

Chronic aquatic toxicity: This product has no known ecotoxicological effects.
<table>
<thead>
<tr>

</thead>
</table>
| **Toxicity to fish** | LC50 (Danio rerio (zebra fish)): > 201 mg/l  
Exposure time: 96 h  
Method: OECD Test Guideline 203 |
| **Exposure time:** | 96 h |
| **Toxicity to daphnia and other aquatic invertebrates** | EC50 (Daphnia sp.): > 90 mg/l  
Exposure time: 48 h  
Method: EG 84/449  
Remarks: No toxicity at the limit of solubility. |
| **Exposure time:** | 48 h |
| **Toxicity to algae** | ErC50 (Scenedesmus subspicatus): > 161 mg/l  
Exposure time: 72 h  
Method: 88/302/EC |
| **Exposure time:** | 72 h |

**Ecotoxicology Assessment**

**Acute aquatic toxicity**: This product has no known ecotoxicological effects.

**Persistence and degradability**

**Ingredients:**

**Octamethyltrisiloxane:**

| **Biodegradability** | Result: Not readily biodegradable.  
Biodegradation: 0 %  
Method: OECD Test Guideline 310 |
| **Stability in water** | Degradation half life: 329 h pH: 7  
Method: OECD Test Guideline 111  
Remarks: Based on test data |

**Tetrakis(2-butoxyethyl) orthosilicate:**

| **Biodegradability** | Result: Readily biodegradable.  
Biodegradation: 83 %  
Method: OECD Test Guideline 301B |

**Bioaccumulative potential**

**Ingredients:**

**Octamethyltrisiloxane:**

| **Bioaccumulation** | Species: Pimephales promelas (fathead minnow)  
Bioconcentration factor (BCF): >= 500  
Method: OECD Test Guideline 305  
Remarks: Biomagnification factor <1 |
| **Partition coefficient: n-octanol/water** | log Pow: >= 4  
Remarks: Based on test data |

**Titanium tetrabutanolate:**

| **Partition coefficient: n-octanol/water** | log Pow: 0.88 |
Mobility in soil
No data available

Other adverse effects
No data available

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods
Resource Conservation and Recovery Act (RCRA) : When a decision is made to discard this material as supplied, it is classified as a RCRA hazardous waste.

Waste Code : D001: Ignitability

Waste from residues : Dispose of in accordance with local regulations.

Contaminated packaging : Empty containers should be taken to an approved waste handling site for recycling or disposal. Empty containers retain residue and can be dangerous. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose such containers to heat, flame, sparks, or other sources of ignition. They may explode and cause injury and/or death. If not otherwise specified: Dispose of as unused product.

SECTION 14. TRANSPORT INFORMATION

International Regulations

UNRTDG
UN number : UN 1993
Proper shipping name : FLAMMABLE LIQUID, N.O.S. (Octamethyltrisiloxane, Organo Titanate)

Class : 3
Packing group : III
Labels : 3

IATA-DGR
UN/ID No. : UN 1993
Proper shipping name : Flammable liquid, n.o.s. (Octamethyltrisiloxane, Organo Titanate)

Class : 3
Packing group : III
Labels : Flammable Liquids
Packing instruction (cargo aircraft) : 366
Packing instruction (passenger aircraft) : 355

IMDG-Code

**AICS -** Australian Inventory of Chemical Substances; **ASTM -** American Society for the Testing of Materials; **bw -** Body weight; **CERCLA -** Comprehensive Environmental Response, Compensation, and Liability Act; **CMR -** Carcinogen, Mutagen or Reproductive Toxicant; **DIN -** Standard of the German Institute for Standardisation; **DOT -** Department of Transportation; **DSL -** Domestic Substances List (Canada); **ECx -** Concentration associated with x% response; **EHS -** Extremely Hazardous Substance; **ELx -** Loading rate associated with x% response; **EmS -** Emergency Schedule; **ENCS -** Existing and New Chemical Substances (Japan); **ErCx -** Concentration associated with x% growth rate response; **ERG -** Emergency Response Guide; **GHS -** Globally Harmonized System; **GLP -** Good Laboratory Practice; **HMIS -** Hazardous Materials Identification System; **IARC -** International Agency for Research on Cancer; **IATA -** International Air Transport Association; **IBC -** International Code for the Construction and Equipment of Ships carrying Dangerous Chemicals in Bulk; **IC50 -** Half maximal inhibitory concentration; **ICAO -** International Civil Aviation Organization; **IECSC -** Inventory of Existing Chemical Substances in China; **IMDG -** International Maritime Dangerous Goods; **IMO -** International Maritime Organization; **ISHL -** Industrial Safety and Health Law (Japan); **ISO -** International Organisation for Standardization; **KECI -** Korea Existing Chemicals Inventory; **LC50 -** Lethal Concentration to 50% of a test population; **LD50 -** Lethal Dose to 50% of a test population (Median Lethal Dose); **MARPOL -** International Convention for the Prevention of Pollution from Ships; **MSHA -** Mine Safety and Health Administration; **n.o.s. -** Not Otherwise Specified; **NFPA -** National Fire Protection Association; **NO(A)EC -** No Observed (Adverse) Effect Concentration; **NO(A)EL -** No Observed (Adverse) Effect Level; **NOELR -** No Observable Effect Loading Rate; **NTP -** National Toxicology Program; **NZIoC -** New Zealand Inventory of Chemicals; **OECD -** Organization for Economic Co-operation and Development; **OPPTS -** Office of Chemical Safety and Pollution Prevention; **PBT -** Persistent, Bioaccumulative and Toxic substance; **PICCS -** Philippines Inventory of Chemicals and Chemical Substances; **(Q)SAR -** (Quantitative) Structure Activity Relationship; **RCRA -** Resource Conservation and Recovery Act; **REACH -** Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals; **RQ -** Reportable Quantity; **SADT -** Self-Accelerating Decomposition Temperature; **SARA -** Superfund Amendments and Reauthorization Act; **SDS -** Safety Data Sheet; **TCSI -** Taiwan Chemical Substance Inventory; **TSCA -** Toxic Substances Control Act (United States); **UN -** United Nations; **UNRTDG -** United Nations Recommendations on the Transport of Dangerous Goods; **vPvB -** Very Persistent and Very Bioaccumulative

**Sources of key data used to compile the Material Safety Data Sheet:** Internal technical data, data from raw material SDSs, OECD eChem Portal search results and European Chemicals Agency, http://echa.europa.eu/

**Revision Date:** 06/27/2016
Items where changes have been made to the previous version are highlighted in the body of this document by two vertical lines.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user’s end product, if applicable.
