

# About The Workshop

The Innovation Workshop and Microfluidics Lab are both located in Elings Hall, home of the California NanoSystems Institute (CNSI) at University of California, Santa Barbara.

**The Microfluidics Lab**, located in 3430 Elings, is a shared use research lab that provides equipment for the manufacturing of Microfluidic devices. In addition to a large selection of PDMS processing tools, the lab also houses a variety of lab equipment for other fabrications and scientific inquiries, ranging from 3D printers and laser cutters to digital microscopes and CNC mills.

**The Innovation Workshop**, located in 2442 and 2448 Elings, is a makerspace set up for rapid prototyping and fabrication. The workshop houses a variety of mechanical and electronic assembly tools, in addition to a CNC router, bandsaw, drill press, laser cutter, 3D scanner, and a number of 3D printers.
