

Bambu Lab X1-Carbon 3D Printer

X1-Carbon	
 A front-facing view of the Bambu Lab X1-Carbon 3D printer. The printer is a compact, light-colored unit with a clear acrylic build plate window. On top, there are three spools of filament (red, blue, and green) mounted on a black filament holder. A small control panel with a screen and buttons is positioned above the build plate. The printer is shown from a slightly elevated angle, highlighting its design and components.	
Tool Type:	3D printer
Location:	Innovation Workshop
Description:	FDM 3D printer
Manufacturer:	Bambu Lab

About

The Bambu X1C is located in Elings 2448 next to the Ultimaker. It is an FDM printer which extrudes melted filament onto a textured build plate.
