

Bambu Lab X1-Carbon 3D Printer

X1-Carbon

Tool Type: 3D printer
Location: Innovation Workshop
Description: FDM 3D printer
Manufacturer: Bambu Lab

About

The Bambu X1C is located in Elings 2448 next to the Ultimaker. It is an FDM printer which extrudes melted filament onto a textured build plate. Currently, it uses ABS, PLA, PETG, and TPU; all in a very limited variety of colors. It's one of our fastest printers while still maintaining a high quality.
