<b>Location:</b> Innovation Workshop
<b>Description:</b> FDM 3D printer
<b>Manufacturer:</b> Bambu Lab

## About

The Bambu X1C is located in Elings 2448 next to the Ultimaker. It is an FDM printer which extrudes melted filament onto a textured build plate. Currently, it uses ABS, PLA, PETG, and TPU; all in a very limited variety of colors. It's one of our fastest printers while still maintaining a high quality.
