Ozone Cleaner Training SOP

Haley Holcomb 8/26/22

Location

The ozone cleaner is located inside the fume hood closest to the Objet printer in the Microfluidics Lab in Elings Hall 3430.

Safety

- Check with lab staff before using the chamber for anything besides bonding PDMS to glass.
- Make sure the chamber is sealed before use.,
- Ozone is a heath hazard use inside fume hood.
- Never dissemble or modify this unit.

Operating Procedures

- 1. Place substrates on platform in chamber,
- 2. Check the height of the substrates using the green tape on the ruler Do not skip this step. A UV bulb is easily broken and costs \$3,000.
- 3. Close the chamber lid.
- 4. Turn on the UV lamps by hitting the start switch.
- 5. Remove your substrates after the 10 minute timer is up.
- 6. Clean the chamber platform if necessary.
