

Sewing Machine

Singer Heavy Duty ^

Tool Type: Sewing Machine
Location: Innovation Workshop
Description: Sewing Machine
Manufacturer: Singer

About

There is a variety of sewing accessories available for use (pins, needles, etc.). No training is required for this tool. Refer to the manual included in the box.

Safety Concerns

This tool uses a needle which is sharp, so always be aware of it and keep your fingers and anything (hair, bracelets) that could be caught clear of it. Also, be aware of when the machine is turned on and off. For example, if you are changing the thread and the machine is on, you will want to be cautious not to bump the pedal. When sewing make sure to keep the foot down on your material and do not sew over any pins.
