

Xytronic LF-853D Soldering Station

Soldering Station
 A black, multi-functional rework station with a carrying handle. The front panel features two digital displays and several control buttons. To the left is an open black storage tray containing various accessories. In front of the station are two soldering irons with different tips and a pair of tweezers.
Tool Type: Electronics / joining tool
Location: Innovation Workshop
Description: Soldering iron
Manufacturer: Xytronic

About

This tool is used to melt solder with its soldering iron or hot air station. This multi function rework station has a max heat output of 900W and can be used for hot air, soldering, and desoldering.

Safety Concerns

This tool generates heat! Do not set directly on bench, do not leave tool operating without supervision.
