Stratasys Notebook, USB Flash Drive & Pen

The complimentary notebook contains information on Stratasys 3D printing technologies, materials, printing tips, safety guidelines and pages for notes.

Attached to the inside cover is a USB flash drive with documentation, software, tutorials and maintenance videos for your printer. Explore the content and refer to the user guide, operator-training guide and videos to learn how to use and maintain your Stratasys Desktop 3D printing system.

The pen provided has a stylus tip for use with touch screens.

For further information or assistance, please contact your authorized Stratasys service representative.
